

LEVEL 1

nano

Imagine and discover the big world of the smallest science. Play with microscopic magnets, build a giant model and compare the effects of static electricity and gravity.

KidScience

A unique area for visitors younger than 7. Children play in experiences that are based in math and science. They learn by touching, trying and testing different environments and activities such as water tables, wind tunnels, blocks, gears and air tubes.

World Alive

Celebrate biodiversity with immersive and unique living exhibits. The exhibition features a rainforest habitat complete with frogs, fish and fauna; aquarium habitats stretching from the North Carolina banks to the coral sea; and two hands-on labs where visitors can touch, observe and experiment with living science and natural history collections.

IMAX Dome Theatre

Equipped with a unique dome shape, state-of-the-art technology and the largest screen in the Carolinas, the IMAX Dome delivers the world's most immersive movie experience.

Curio City Kitchen

Full of fresh fare and forward thinking, *Curio City Kitchen* is based on the principles of eating local, healthy and green. From Signature Sandwiches to the Soup of the Moment, there is something for every palate.

LEVEL 2

Genghis Khan Presented to the Community by Wells Fargo

NOVEMBER 19 - APRIL 30

Experience life in 13th-century Mongolia, entering the tents, battlegrounds and marketplaces of a vanished world.

Cool Stuff

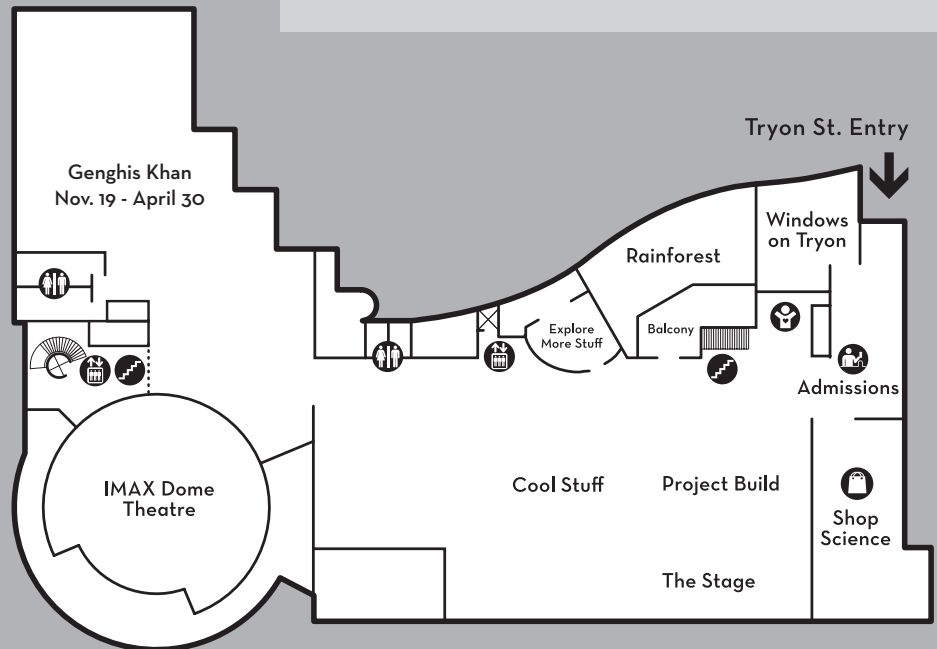

Explore why things do the things they do. Experiment in galleries of interactive contraptions and manipulatives designed to demonstrate physical phenomena in unique and eccentric ways.

Project Build

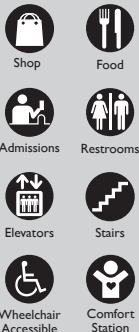

Explore why we build what we build. Through building challenges, understand how context, function and aesthetics play a role in what we construct in the world around us.

Shop Science

From exhibition and IMAX-related items to plush toys and cool take-home science kits, *Shop Science* is a must-shop for all things weird, wild and wacky. Plus, your purchase helps support the wide variety of educational programs provided by the Museum.

KEY

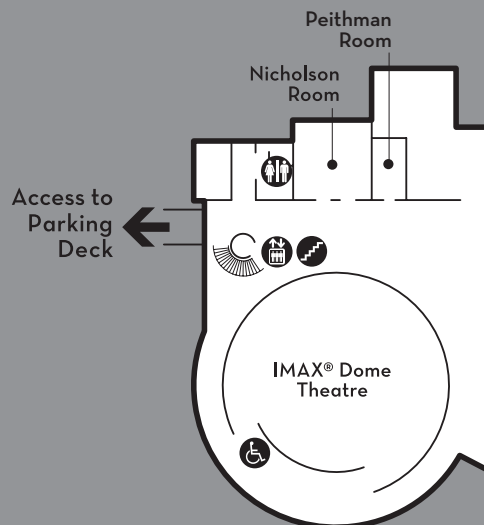

science Buzz

DON'T MISS Science Buzz

Located throughout the Museum.

Is everyone buzzing about something? Do you want to know more? Visit *Science Buzz* for a multimedia experience with online, audio and physical components, that gets visitors involved with uncovering information about the latest in scientific topics.

LEVEL 3
